

PR  ME
artificial grass

About **PRIMEGRASS**

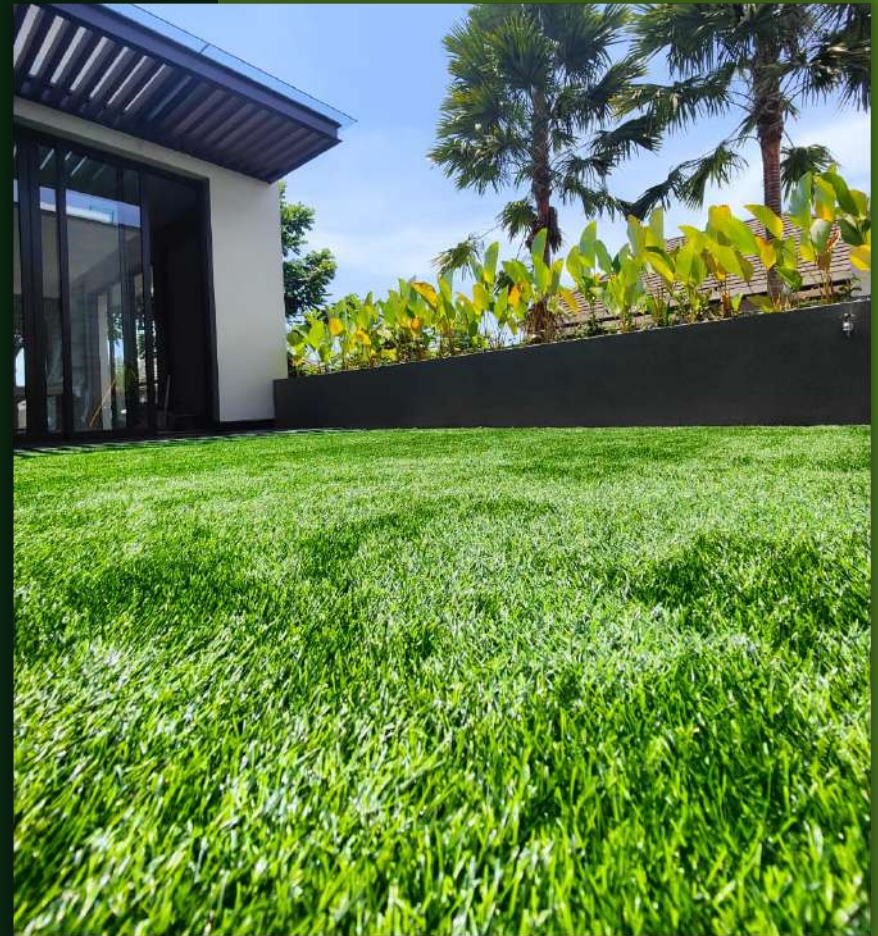

Our journey started in 2014, with a full commitment to create the perfect artificial grass for all of your needs. PRIME GRASS became the first company in Indonesia to provide highest quality synthetic grass.

PRIME GRASS is the perfect solution for most people who wants to have a beautiful green lawn, but don't have the extra time for a complicated maintenance process. With PRIME GRASS, everyone can enjoy the comfort of lush, green grass instantly without having to water, mow, or fertilize it.

Along the way, we have successfully installed our grass for hundreds of projects, including residential areas, commercial spots, sport fields, even Indonesian military headquarters.

Whichever you choose, we will make sure you get the best product experience, because customer satisfaction has always been our number one priority.

Why Us?

PRIME GRASS is committed to provide a complete landscaping solution by creating a high-quality, lifelike synthetic grass that has proven its superiority to other brands:

- PRIME GRASS are made of first-grade Polypropylene and Polyethylene, which are best known for their durability, softness, and aesthetic.
- All of our products are weather-resistant, low maintenance, and easy to clean.
- Safe for pets and children. Soft, comfortable, and pest-free.
- Long-lasting. In the outdoors, PRIME GRASS can last for 8 to 10 years without changing color. Indoors, it can last for 10 to 15 years.
- We have a wide range of product choices with different prices, colors, and densities.
- Easy to install. Or if you need any help, please contact us for installation service.

Our Values

Vision

As a pioneer among artificial grass companies in Indonesia, we strive to deliver only the best quality products to achieve the highest level of consumer satisfaction.
